**III. Old Business**

- Scope of Practice Rules Update – Mary Sue Gorski and Shannon Fitzgerald
  - Mary Sue and Shannon provided a brief update on the scope of practice rules. Mary Sue noted that the rules were previously opened to consider putting the scope of practice decision tree into rule in order to give nurses a stronger foundation in their decision making. Since then, much work has evolved around the decision tree and in the process the focus has shifted to strengthening the structure of decision making for nurses as they evaluate new procedures and skills. Discussions have been held with RN and LPN internal staff about this new approach as well as future stakeholder engagement in order to gather more information.

**IV. New Business**

- ARNPs United Prescriptive Authority Request Letter and Response

- The subcommittee reviewed the letter from ARNPs United regarding prescriptive authority as well as NCQAC's response. A discussion regarding the letter's request that the subcommittee consider making a recommendation to the commission that prescriptive authority be included as part of licensure rather than being optional followed. Donna noted that more research will need to be done on the requirement. Several subcommittee members provided examples of prescriptive authority in nursing practice and their own experiences. Joanna provided some background history as to why CRNAs don't need prescriptive authority as well as possible next steps. The subcommittee discussed the possibility of an 'opt-out' versus an 'opt-in' option regarding prescriptive authority. The group agreed to gather and review more data pertaining to prescriptive authority and continue the discussion at the next subcommittee meeting.

**V. Ending Items**
