

APPLY FOR A WASHINGTON STATE MULTISTATE LICENSE

60-DAY RULE

If you have a current MSL, a new national compact regulation requires that you change your primary state of residence (PSOR) within 60 days of knowing that you will remain in state.

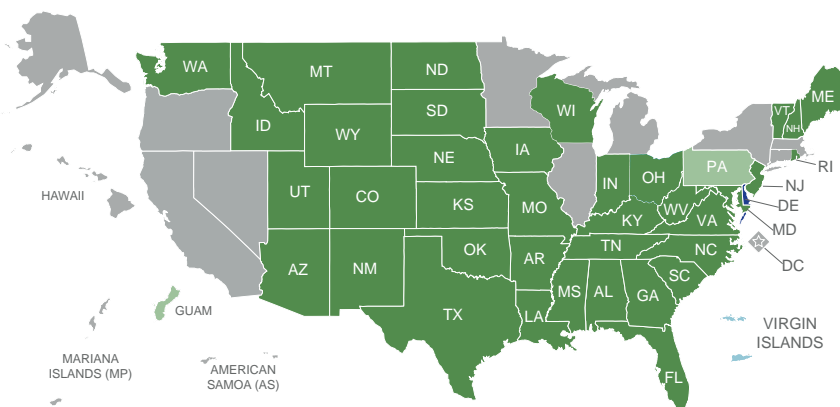

If you have an active Washington single-state license, and want a multi-state license (MSL), simply apply for an [MSL upgrade](#).

You don't need to wait for your birthday!

- The fee to upgrade is \$65.
- Your license number will not change.
- You must meet all [Uniform Multistate License Requirements](#).
- As part of the application process, you must complete an FBI background check using [LiveScan](#) or on fingerprints obtained from a [fingerprinting facility](#).
- You'll still need to pay your annual renewal fee.
- The process takes 2 to 3 weeks.

Visit nursing.wa.gov/msl for more information.

Don't wait for your usual renewal period. Apply today!

Washington state is one of 41 jurisdictions in the Nurse License Compact.

Having a WA multistate license provides you with flexibility, increased access for patients, and the opportunity to practice in other Nurse License Compact states without additional cost.

Apply for the MSL!
