Approved Clinical Site Placements for Out-Of-State Nursing Programs

All out-of-state (OOS) clinical placements approved by the Washington State Board of Nursing (WABON) are authorized for Washington State residents only. This decision reflects the limited availability of clinical placement opportunities and the Board's commitment to prioritize resources for students who will contribute to the state's nursing workforce. FAQs can be found on https://nursing.wa.gov/education.

Under Washington state rules, an out of state nursing program must seek approval from the Washington State Board of Nursing (WABON) prior to clinical placement of students. The application for program track approval can be found at the following link https://nursing.wa.gov/education under the applications column. Please refer to Washington Administrative Code (WAC) 246-840-571 for detailed information regarding out of state distance learning nursing program approval for practice experiences in Washington state. The most updated approved program list can be found under the Find an Approved Nursing Program website page under Out-of-State Clinical Placements. If a program is not on the approved list and is placing students in clinical experiences in WA state, please email the WABONEducationUnit@doh.wa.gov so we can support the program in obtaining approval. Please distribute this document to any interested parties that may find this information relevant.
